

## Banking Ratios and Indicators

### Fourth: Banking Ratios and Indicators

#### **1- Liquidity Ratio and Management**

##### 1/1 Liquidity Adequacy Ratio:

1/1/1 Each bank should calculate the liquidity adequacy ratio, based on the data of its monthly balance sheet and fill in the attached form no. (1) annex no. (28), to be submitted to QCB on the eighth day of each month.

1/1/2 If a bank violates the minimum limit on any one day or more, the ratio must be calculated for all the days of that month and the attached two forms no. (2&3), annexes no. (29) & (30), should be filled in and submitted to QCB attached to monthly balance sheet.

1/1/3 Banks must consider that QCB may, at any time, require banks to calculate this ratio for all the business days of certain month. If any unreported violations are detected, QCB will impose a fine of (QR100000, one hundred thousand Qatari Riyal) for each day of committing the violation, in accordance with article (216) of The Law of the QCB and the Regulation of Financial Institutions (Law no. (13) of 2012).

##### 1/2 Liquidity Management (Maturity Ladder):

Maturity ladder tables attached to circular no. (121/2008) annex no. (136) should be instantly submitted to QCB. Amendment was made to provide QCB with the monthly tables and to be filled in accordance with the end of year financial statement of the last working day of the month. Such tables should be sent back to QCB by a deadline of the following month as from April 2009 according to circular no. (29/2009) dated 30/4/2009.

#### **2- Credit Ratio**

2/1 Each bank must calculate the credit ratio, based on the data of its monthly balance sheet, annex no. (31).

2/2 If the ratio exceeds the maximum of the required limit, the ratio must be calculated for all the days of that month and the following attached forms should be filled, and submitted to QCB attached to the monthly balance sheet:
